

ABHA Architects is seeking candidates for the position of Architect (or Intern Architect working toward registration).

ABHA Architects is a full service architectural firm in Wilmington, Delaware. With an emphasis on reaching a clear understanding of each client's needs and design criteria, our firm of 14 people has an excellent reputation for continually developing and refining the design and management skills necessary to produce high quality buildings. The parent firm was founded in 1949 by architects who had formerly worked with the DuPont Company. Our history of low employee turnover has produced a staff with long experience in working together effectively. Our focus includes a wide range of projects including new construction, renovations, sustainable design, historic restoration and adaptive re-use.

ABHA Architects has recently been commissioned to design a \$50 million renovation of the historic Howard High School in Wilmington. ABHA is also working with Robert A. M. Stern Associates on a new residence hall for the University of Delaware.

Candidates to have:

- Minimum of BArch or equivalent degree with strength in design and documentation.
- 3 to 5 years of experience preferred.
- Working knowledge of coordinating mechanical and electrical systems through construction documentation and construction administration of projects.
- Proficiency in Revit & AutoCAD.
- Experience assisting with contract administration responsibilities.
- Interest in developing project specifications from master specifications.
- Ability to use rendering software a plus.
- Architects who are not U.S. citizens must describe their status to work in the United States, including detailing visa type and duration.
- Fluency in English, both written and spoken, is required.
