

Architect/Architectural Designer

TBS Services, Inc., is a specialized Architectural Firm that focuses on the design and evaluation of exterior building enclosure systems, for both new and existing buildings. Our practice has been successfully servicing the region for more than 20 years. We currently have an opportunity for an Architect/Architectural Designer with 3-5 years' experience, to work out of our office in Haddon Heights, NJ (suburb to Philadelphia).

Successful candidates for this position will possess excellent communication and organizational skills, and have a predilection for building science, as well as being well-versed in the following: AutoCAD/Architectural Desktop; BIM; Bluebeam, Microsoft Office and other related software; technical report writing; field surveying of existing building conditions; technical aspects of construction detailing; preparation and development of design and construction documentation; shop drawing and submittal review; field site observation; and construction contract administration.

References due upon request.

Professional Licensure not required.
